

Who was Earl W. DeVine? - Herewith we try; Issued amateur call W8KKG *1907-1967* Earl a long time pharmacy operator and resident of Zanesville, Ohio. Born in Wilkes-Barre Pa, of Jeremiah and Margaret DeVine. He had two brothers and two sisters all of Toledo.

Earl a grad of Toledo U PhC program in 1929. Member of many organizations including F&AM - County Pharmaceutical Society and its Pres. Rotary member.

Earl William DeVine W8KKG was a business partner in 1945 with Frank Herron according to the ZTR offices and business at 21 North 4th Zanesville.

Interesting in that Earl had his occupation inked on his card! Look closely, he was commenting on W7KOP who at one time owned Dinwoody Lake Ranch in Burris, Wyoming. We have a copy of the W7KOP QSL card and It gives pertinent information about Dinwoody Lake Ranch. I am wondering now if Earl ever came up that drive for a visit? We truly hope so. QSL's are courtesy of the K8CX collection at Ham Gallery. Articles from the Zanesville Times Recorder.

There are actually two parts of the story here, of Earl DeVine in Zanesville, Ohio and the gent he was working on the air depicted in the W8KKG card who was Woody W7KOP in Wyoming at the time. Earl expired early in life and Woody went on and lived to be age 99, expired in Utah 25 December 2010. Woody was considered "America's oldest Scouter." Continued on page two.

For Reservations Write:
DINWOODY LAKE RANCH
Burris, Wyoming

This will sound like a fish story, we know, especially when you consider the names of the people involved, but here it is: On Oct. 21 1951, Fred Fish, Sr., Dubois, pulled an 18-pound Mackinaw out of Dinwoody lake. Just one week later his son, Fred Fish, Jr. brought home a 26-pound fish of the same species, . . . out of the same lake!

Woody pictured left. I know what you are thinking, “Does Dinwoody Lake Ranch exist today?” If the resort exists, it is operated by another name. The owner W7KOP Woody -Leonard A. Woodward at the young age of 8 in the year 1918 built his own radio set. He received awards of being the longest consecutively registered scouter! Do a Google on W7KOP there’s a lot of material and pictures.
